

Consumer Loans

Our lenders are trained to help get you, what you want. We understand credit, not just credit scores. We know how to structure debt in a logical manner which allows you the ability to service you obligations on a timely basis. Consumer loans are often made to purchase automobiles, atv's, tractors as well as homes, mobile homes and recreational vehicles.

Residential mortgage loans are also made in our Consumer Loan Department. These loans are often made when conventional mortgage sources are unavailable.

Construction Lending is an area of which we are particularly proud. This is a specialized area of lending requiring personalized attention to your needs and wants. We work with you and your contractor to make your vision a reality.
